What Colleges Look for When Making Decisions

Top 3 Most Important Factors

1. Strength of curriculum (Honors, Advanced Placement)
 2. Grade Point Average (GPA) and class rank
 3. College Entrance Examination Scores (ACT or SAT)
- If the college requires them:
 - Essay
 - Interview
 - Recommendation Letters
 - Resume (leadership, community service, extracurricular, talents, etc)

Find the Right Fit

- Academic Reputation (quality education)
- Availability of scholarship and financial aid
 - How and when are scholarship awards made and when is notification received
- College Size
- Location
- Majors
- Faculty to Student ratio
- Job Placement success

The College Visit (no drive-bys please!)

- **Before you visit, call for an appointment**
- **Have your questions ready**
- **Ask to speak to faculty in your area of interest**
- **Visit the placement office for future employment information**
- **Ask to see residence halls**
- **Talk to currently enrolled students**
- **Eat on campus**
- **Determine if you are admissible**

The Application Process

- **Determine the number of schools to which you want to apply**
- **Be mindful of deadlines**
- **Treat this as a homework project – care should be given to the appearance of your application**
- **Determine if you want to complete the on-line application form – Most all on-line now!**
- **If essay required, give it proper attention. Get it Proofed!**
- **Decide on no more than 3 – 5 institutions**
- **Time line for decisions- DEADLINES**

Application Strategies

APPLY EARLY:

At the beginning of the admission cycle (August, September, and October) GPA and test score mid-ranges are typically low due to the low volume of application usually received at institutions with ROLLING admissions.

Later on in the process (November, December, January and February) the volume of applications increase. As a result, GPA and Test Score mid-ranges increase.

CONTINUE IMPROVING YOUR GRADES AND CONTINUE TESTING:

Depending on where you stand with institutional mid-ranges, it is recommended that you continue to improve your GPA and continue testing until you receive an acceptance letter from your college. Never Give UP !!!

SUBMIT NEW TRANSCRIPTS AT THE END OF THE FIRST SEMESTER

Transcripts are updated at the end of the first semester around mid-January. As soon as your transcripts are updated, it is important that you send them to all colleges that you are waiting for decisions.

Types of College Admission

➤ Early Decision.

Students make a commitment to a first-choice institution where, if admitted they definitely will enroll. The application deadline and decision deadlines occur early. This is a fully-committed decision.

➤ Early Action.

Students apply to an institution of preference and receive a decision well in advance of the institution's regular response date. Students who are admitted under Early Action are not obligated to accept the institution's offer of admission or to submit a deposit until the regular reply date (not prior to May 1).

➤ Regular Decision.

Students submit an application to an institution by a specified date and receive a decision within a reasonable and clearly stated period of time, but not later than April 15.

Types of College Admission (cont.)

➤ **Rolling Admission.**

Institutions review applications as they are completed and render admission decisions to students throughout the admission cycle.

➤ **Wait List.**

An admission decision option utilized by institutions to protect against shortfalls in enrollment. Wait lists are sometimes made necessary because of the uncertainty of the admission process, as students submit applications for admission to multiple institutions and may receive several offers of admission. By placing a student on the wait list, an institution does not initially offer or deny admission, but extends to a candidate the possibility of admission in the future, before the institution's admission cycle is concluded.
